

Traditional

This denotes memorials that cover the whole grave.

The costs are for the supply of the memorial only. The cost of the inscription and fixing the memorial should be added along with VAT and a fee to the burial authority. The cost of fixing the memorial to the grave will depend on the size of the memorial, the location of the grave and the regulations of the burial authority. For a traditional memorial, you may anticipate a charge of around £350 to include foundations and a ground anchor; this estimate is very much subject to a site survey.

Traditional Memorial
