

Maintenance

Some memorials stand up to the elements better than others but given time, any memorial will deteriorate. It is possible to renovate memorials. This is sometime done in situ; other times it is removed to our workshops.

Sometimes larger memorials need to be levelled or to have their foundations replaced.

Inscriptions in particular need to be re-painted from time to time.

We would be pleased to quote for any maintenance work you are considering. We will need to know the name of the burial ground and either a grave number or some sort of navigational aid to locate the grave.

We can provide maintenance contracts which spread the cost of renovation over many years and avoid the need for any major work to be carried out as we spot the need before it becomes serious. We would be pleased to quote to you for such an arrangement. We will need to know the name of the burial ground and either a grave number or some sort of navigational aid to locate the grave.
