

This notice is published and displayed in accordance with our legal obligation under The Funerals Market Investigation Order 2021 and authorised by the CMA (Competition & Markets Authority) which is a government agency. In Part 4 'Crematorium Operators price information and transparency' Article 8 'Price information' the Order requires crematorium operators to publish prices for three provisions, as described by the CMA. The wording describing the provision is not ours but that of the CMA. It does not necessarily embrace the requirements of funerals requested by clients of this Company and therefore we advise readers to also read the explanatory notes and other prices that we also publish both here on our premises and on our web site.

Price Information:

A a Crematorium Standard Fee Attended Service (this includes everything that is required for a funeral):	£2795
B a Crematorium Unattended Service	£1800
C a Crematorium Reduced Fee Attended Service	we do not offer this service

Important Note:

All of the above includes not only our charge for the cremation itself but everything else that is required to facilitate the cremation, such as collection of the deceased person, coffin, etc. Harbour View is not a typical crematorium as it is both funeral home and crematorium and therefore our services are provided in packaged form and are not necessarily available separately. Please see our Price List (in particular, the sample packages) to find a specification of what is included and excluded from the above.
